Minneapolis, MN. USA

MAMAC Systems is a leading global manufacturer of sensors, transducers, control peripherals and web browser based IP Appliances.

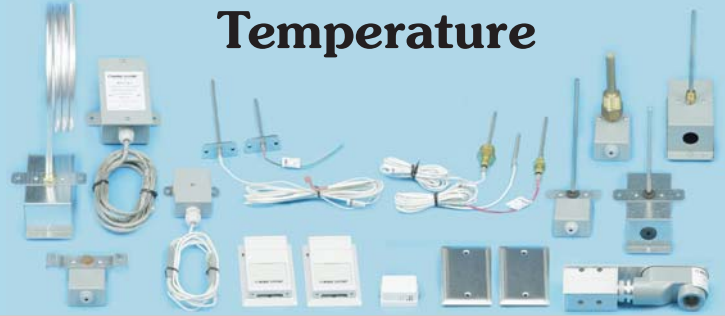

MAMAC Systems pioneered the HVAC DDC sensor industry 31 years ago. Many years of patented innovative technologies, millions of sensors installed globally and the most extensive portfolio of OEM customers attests to our sustaining leadership.

MAMAC products are used for HVAC and environmental controls, remote monitoring alarming, energy metering, and industrial automation.

Adelaide, Australia • Birmingham, United Kingdom  
Toronto, Canada • Singapore

## Sensors and Transducers

### Temperature

Most extensive enclosure options in the industry  
More than 21 sensor types for universal compatibility  
Extremely fast accurate response guaranteed for life

### Humidity

Room, duct, outside air and OEM unit mount  
Bulk capacitive humidity sensor immune to contaminants  
Over 30 years performance data in harsh OEM applications

### Pressure

Rugged monolithic port design for high pressure  
Ultra thin prestressed silicon capacitive for low pressure  
Selected by OEMs for airflow, duct and building pressure
